

# NICK ALDWIN D. LEMONCITO

Software Engineer

## SUMMARY

I am a Full Stack Software Engineer from the Philippines. As a passionate software engineer, my expertise lies in creating beautiful and intuitive user experiences. I am dedicated to finding innovative solutions and committed to going the extra mile to ensure project success..

## WORK EXPERIENCE

### Software Engineer at 100Devs, Los Angeles, CA (REMOTE)

February 13 2023 — May 30 2023

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

### Notable Projects:

**Kaldi Coffee Shop (Fullstack Web App)** – Customers can take coffee orders from customers with their names. can login to the app and see orders that have been made, mark them as complete. Orders that have been completed will note which barista completed the order

. Project link : [Kaldi Coffee Shop](#)

**Quickapp (Fullstack Web App)** – Users can login and log out to their profile and find their post . They can add a new post through an input, which they can then edit or delete all posts in their profile.

## OPEN SOURCE CONTRIBUTIONS

April 09 2023— Present

**@Eddiehub/Linkfree:** <https://github.com/EddieHubCommunity>

As an enthusiastic participant in the open-source community, I wholeheartedly contribute to the Eddiehub/Linkfree project by actively engaging in its development process. I diligently collaborate with fellow contributors, providing valuable insights and contributing my expertise to improve the project's functionalities. I eagerly contribute bug fixes, optimize existing code, and implement innovative features, all aimed at enhancing the user experience and ensuring the project's continuous growth and success.

**@appwrite/appwrite:** <https://github.com/appwrite/appwrite>

I actively contribute to the Appwrite open-source project, where I leverage my skills and knowledge to enhance the platform's capabilities. Through my contributions, I strive to improve the stability, performance, and usability of Appwrite, by submitting code optimizations, fixing bugs, and collaborating with the community to introduce new features that empower developers and users.
